Question/Answer

The Story of My Life

I went from being an artist/stay-at-home mom, to founding Raising the Vibe, a non-profit, just one year after an awakening experience.

The journey started with two questions:

1. Is there some sort of interconnected energy field that ties us together?
2. What are the common elements in all religions throughout time and culture?

The Story of My Life

I had the compelling urge to find my higher purpose.

Synchronicities started to occur (messages from friends and brochure)

Paradigm shift: Life is not just a series of random events, but a conscious unfolding of greater awareness.

Just because I can't detect something with my five senses, doesn't mean it is not there (i.e., a dog whistle)

The Story of My Life

Reading books like, *The Celestine Prophecy*, *The Biology of Belief* and *Power vs. Force* that tie biology to spirituality was key to my paradigm shift.

One can go gracefully into this world, but more often than not spiritual awakening is preceded by deep suffering and eventual surrender to a higher mind.

By following up on a dream, I made a key connection. Your subconscious can give you powerful clues.

The Story of My Life

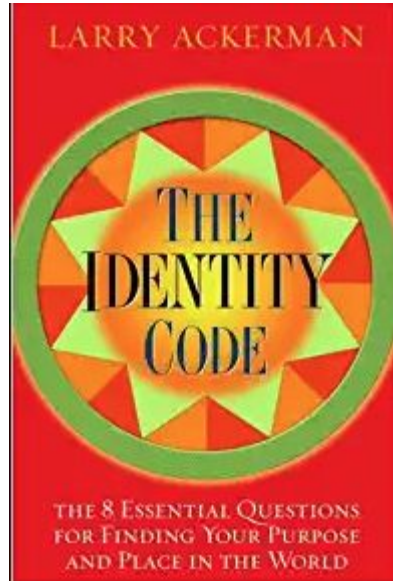

Life is a scavenger hunt where we follow leads to find our next clue.

If we are present and paying attention, we will meet others to help us on our mission through the law of attraction.

This is where “magic” enters your life.

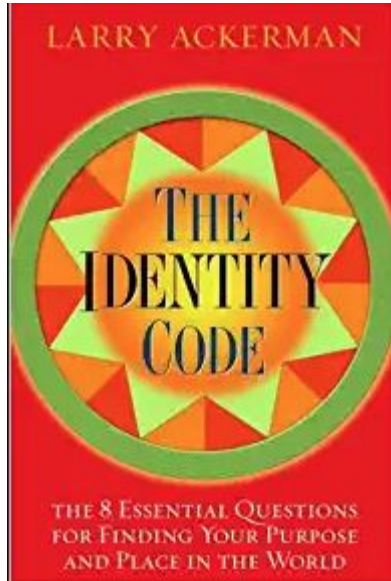

Identity Mapping®

The Story of Your Life

- I. The First Question — WHO AM I?
- II. The Second Question — WHAT MAKES ME SPECIAL?
- III. The Third Question — IS THERE A PATTERN TO MY LIFE?
- IV. The Fourth Question — WHERE AM I GOING?
- V. The Fifth Question — WHAT IS MY GIFT?
- VI. The Sixth Question — WHO CAN I TRUST?
- VII. The Seventh Question — WHAT IS MY MESSAGE?
- VIII. The Eighth Question — WILL MY LIFE BE RICH?

Identity Mapping®

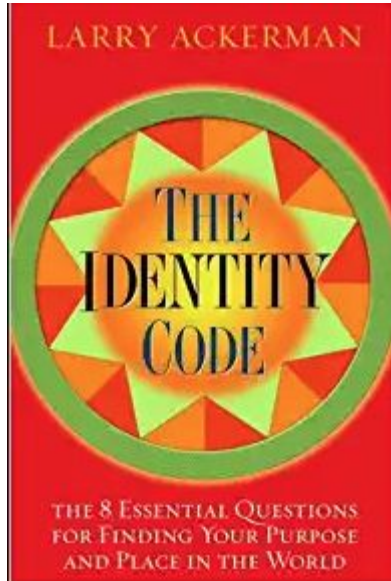

The Core Self and The Identity Paradox

It is not about your accomplishments in life, but who you are or born to be — your immutable soul.

Being present, owning your authenticity and going with what you are good at are ways to get off “autopilot.”

You know you are living your purpose when you are in the flow.

Identity Mapping®

Story of Millie's Transformation

(Creating your unique mantra)

Millie, a nurse practitioner, was diagnosing people every 15 minutes and couldn't express her love and spirituality with her patients.

She was frustrated with the traditional health care model.

Through this work, she realized her life force was "loving resilience" and became an integrated oncology practitioner with her own company and is a speaker on alternative health.

Energy Healing/Specialized Kinesiology

Rebecca Wineka, helped me wake up to a new reality and together we followed the clues.

She gave up her therapist's license to become trained in an energy healing method called Specialized Kinesiology.

I have had multiple energy sessions of all types over the last 3 years to de-stress and de-program my energetic field, layer by layer.

Energy Healing/Specialized Kinesiology

The Brain is a Bio Computer

We come in as a circuit board. The first seven years and even in utero, a child absorbs, via delta and theta brain wave states, information from their environment in order to help them adapt.

Our subconscious programming and stress are like apps on your phone. The more apps you have running and constantly refreshing in the background the more energy that is siphoned off from your “battery” or life force.

Energy Healing/Specialized Kinesiology

We create a “program” in our brain of belief systems and we stuff emotions in our body. This conditioned mind, which is often programmed out of fear, gives us our Ego identity.

The body then responds to thoughts as if it were happening in real time and either produces an adrenal reaction, or if all is well, goes about its business of rejuvenating our cells.

Energy healing pulls trauma out of the body where it has been stored. This gives people a clearer connection to their core essence or higher self.

Energy Healing/Specialized Kinesiology

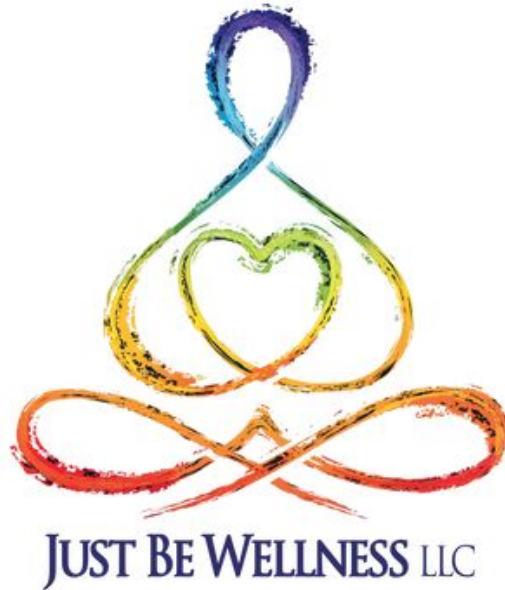

Specialized Kinesiology accesses the body's subtle (subconscious) energy field using muscle monitoring.

This bio-feedback mechanism locates distress in the body which can be pulled out by the facilitator.

Acupressure touch holds points to enable energy to start flowing again.

Energy Healing/Specialized Kinesiology

Becca's practice is located in Black Mountain, NC. (Right outside of Asheville). She is also available for remote sessions.

The Enneagram

KBERMAN

Which of the 9 Enneagram
Personalities is You?

The Enneagram is an ancient psycho-spiritual system of classifying personality types based on a nine-pointed star-like figure.

Inscribed within a circle are nine points representing a personality type and its psychological motivations.

The Enneagram

KBERMAN

Which of the 9 Enneagram Personalities is You?

It originated in about 2 AD by the Desert Fathers and Mothers to find meaning in life to identify with the gods and avoid the demons.

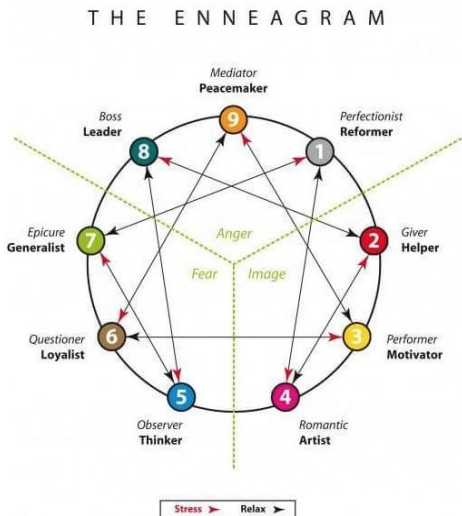

The low sides of each point were equated with the 7 deadly sins plus 2 modern ones.

The points also have “holy”(self-actualized) sides to them.

The Enneagram

KBERMAN

Which of the 9 Enneagram
Personalities is You?

Describes a number of different human conditions or personality types.

The circle equals wholeness: the prodigal son that makes his way home.

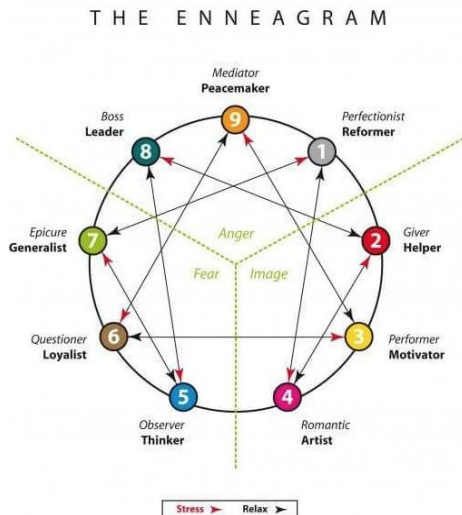

The triangle symbolizes the blending of polarities.

The six-pointed star is the number of creation.

The Enneagram

KBERMAN

Which of the 9 Enneagram Personalities is You?

Each type helps define how we think, feel and act at a background level.

It is a belief system of how we adapt in the world to have our basic needs of love, security and self-worth met.

The Enneagram teaches us how we are organized individually and collectively and how to move around the circle to activate our inherent gifts.

There are four main energy or aura types:

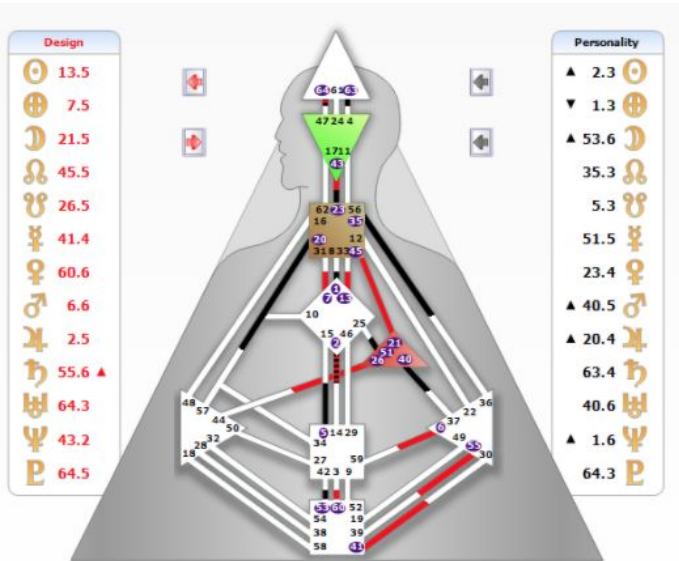

Generator (including the subtype of Manifesting Generator)

Projector

Manifestor

Reflector

Human Design

Generator

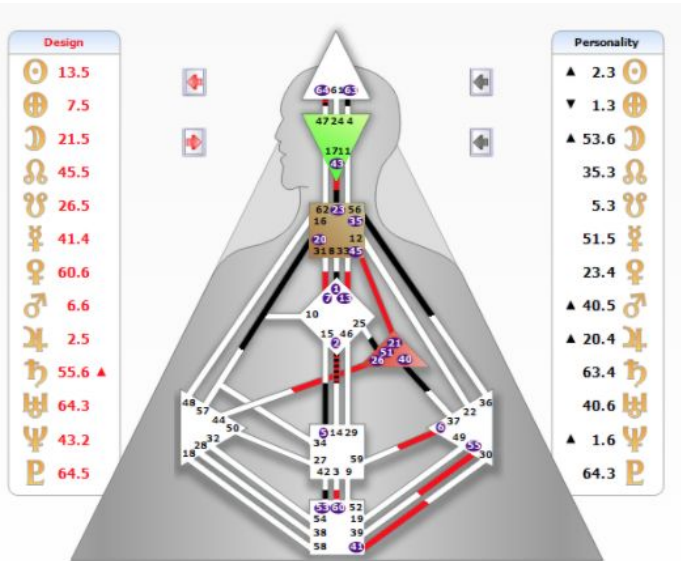

This is the most common type encompassing 70% of the population.

Generators have an open and enveloping aura which is drawing to them what is right.

They are basically yin beings here to wait to respond.

Able to sustain work

Human Design

Projector

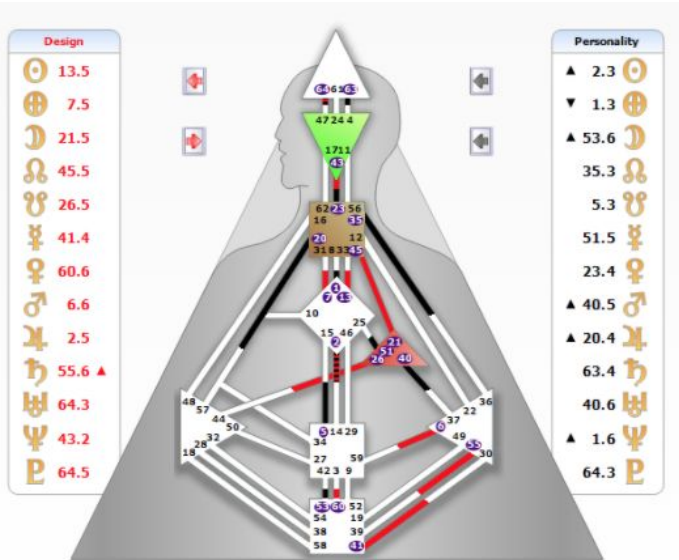

Their aura is absorbing and penetrating, taking in a lot of information, then focusing in on one person.

This type is best suited to know the other and are guides to humanity.

Projectors comprise 20% of the population

Can't say much without the invitation because it is penetrating and otherwise might not be well-received. (Like a doctor doing surgery).

Human Design

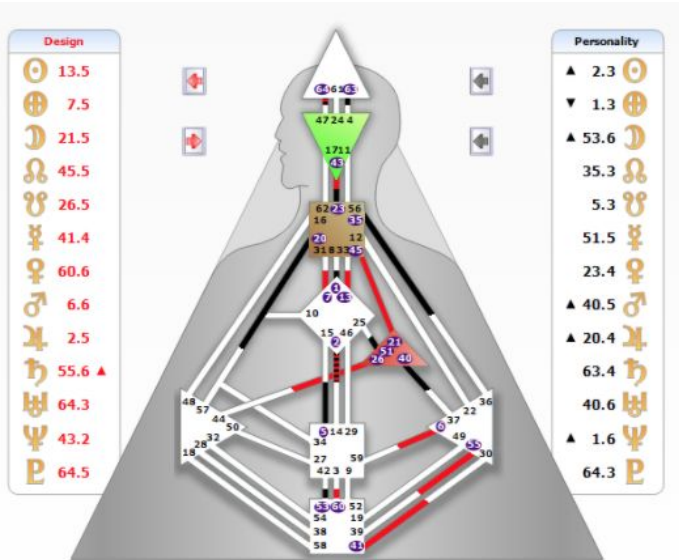

Manifestor

At just 9% of the population, Manifestors are often visionaries and here to make an impact.

They are often starters with the ability to manifest and can initiate others into a new phase of life.

Their aura is repelling, saying get out of my way, even though their personality can be sweet.

Human Design

Reflector

At just 1% of the population, with no defined centers, they are here to know the environment.

Their aura is resistant but sampling and reflecting back.

They are a barometer for society and want justice.

The Siddhi - my essence
The Gift - my creativity
The Shadow - my challenge

Genius
Love
Prosperity

The Gene Keys are a map of our humanity and divinity.

It is a language in which we can see the spectrum of consciousness in 64 flavors.

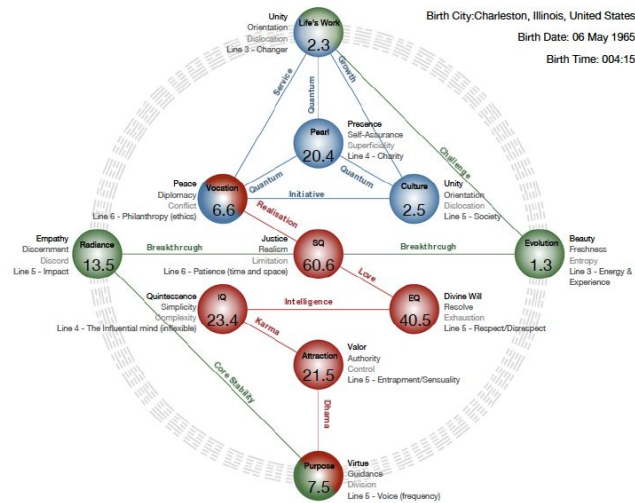

To evolve we need to allow, accept and embrace the shadow to release the gift and embody the Siddhi.

The outer ring consists of the 64 hexagrams and is all aspects of the flower/perfection of life.

It is a path of contemplation and allowing it to work on you.

The Siddhi - my essence
The Gift - my creativity
The Shadow - my challenge

Genius
Love
Prosperity

The low frequencies, the words at the bottom of each sphere and red venus sequence, are the shadows.

The gift is in green and the blue is the divine gift.

It goes from ego to essence or fear to love.

To generalize, all Shadows are victim states of consciousness and the Gift and Siddhis are freedom states.

As a collective, we are shifting into the gift frequency and many, such as those on an active spiritual path, are already there.

The Akashic Records

An energetic database of all knowledge for all souls for all time.

They show up visually for some and others might hear them as if someone is speaking to them. They are experiential and energetic, but also can be used to get particular data about a lifetime or learn soul connections.

Accessing your Akashic record is beneficial to help you understand yourself more fully as a soul.

The Akashic Records

Difference Between the Soul and Personality

There are different names for the “essence” inside that is not going anywhere and is pure consciousness. Your higher self or soul is connected to everything everywhere.

In comparison, your personality is what you have chosen as a soul to express yourself in a particular lifetime.

We can choose different genders just to experience the difference; but often key aspects of your energy, like leadership or extroversion, carry over to different lifetimes.

The Akashic Records

On Other Worlds and in Other Dimensions

Your soul's journey helps you understand your gifts, strengths and purpose.

As a soul we have been in other worlds way longer than we have been on planet Earth.

Our challenges here are small compared to what your soul knows. Knowing the characteristics of your home world gives you something real to connect to.

As a soul we decide which gifts we want to bring to Earth.
